

Free Service Agreement

Sustainable tourism requires transparency and credibility, visibility and market access. ECOTRANS, as an independent not-for-profit organisation, manages a global list of environmental and sustainability certificates in tourism. The Destinet / Tourism 2030 platform enables certificates to be easily found by travel experts and travellers, whilst simultaneously giving global visibility to their certified businesses, destinations and tour operators via our network of engaged promotion and marketing partners.

What services are included?

Being listed brings a number of concrete benefits, for your certification scheme and for the businesses you certify:

For your certification scheme

- Visibility on the independent, not-for-profit [ECOTRANS](#) platform, which has been promoting sustainable travel options for decades.
- Reach and recognition: your scheme becomes an important source for travellers and travel experts alike, presented through the [Global Certification Quickfinder](#) . Businesses looking for the right certification can also find and choose your scheme there.

For your certified businesses and destinations

- Your certified businesses gain global visibility on the [Travel Green Planet Maps](#) , where travellers and experts can discover them.
- Through our network of [Promotion and Marketing Partners](#) , the reach of both your scheme and your certified businesses grows considerably.

For both, on fair terms

- With this Free Service Agreement you always keep an overview of what happens with your data, and therefore stay in control.
- And all of this is free of charge.

Please fill in and send the Free Service Agreement to: herbert.hamele@ecotrans.de . More about the service: [Tourism2030 - Free Service for Certificates](#) .

FREE SERVICE AGREEMENT

☒ We appreciate the **Free Tourism2030 - Service for our certification programme** and will continue to provide and keep up-to-date our information through participation in the Tourism2030 Sustainability Certification information clustering process to be promoted on the *Certification Quickfinder* , represented on the *Travel Green Planet Maps* and be part of the *Destinet / Tourism 2030 data distribution service* . This data distribution service is used by tourism research, development and marketing organisations, booking services, travel agents and tour operators (see the promotion and marketing partners above).

The Service will start on the day of agreement and is valid for a period of one year (12 months). Thereafter, this agreement will be automatically renewed for periods of one year until terminated by either party giving three months written notice period, such expiry not to be before the end of the relevant month.

How would you like to provide your data?

Please tell us how you will send us the list of your certified businesses in future, so that we can keep the maps and listings up to date.

Option 1: Provide a public download / data source (URL) where your list of certified businesses can be retrieved:

Option 2: Alternatively, send the list of your certified businesses by e-mail to dataservice@ecotrans.de .

How often can we expect updates?

monthly quarterly semi-annually annually

Please note: The lists are forwarded by ECOTRANS to its technical service partner [FAIRWEG](#) , which processes them and makes them available both for the *Travel Green Planet Maps* and for the network of Promotion and Marketing Partners.
