# TRIANGLE KNOWLEDGE ALLIANCE

Welcome to TRIANGLE - Europe's Next Generation Sustainable & Responsible Tourism Learning Delivery Network

This is a European Sustainable Tourism Research and Monitoring Higher Education & Business Network focused on Europe's protected areas. We are working together as an Erasmus-funded Knowledge Alliance to deliver graduate level, industry-facing tourism sustainability learning experiences to support the implementation of the 2030 Agenda for tourism businesses, destination administrations, academics and students alike. This site introduces you to the range of our work.

**10 TOPICS** introduce the action fields according to UN and EU policies, linked to SDGs and providing a **COMPASS** to helpful information for administrations and NGOs, academics and consultants, destinations, businesses and travelers.

## TOPICS

The TOURISM2030 platform brings three decades of past sustainable tourism development experience at the highest level together with the latest contemporary research and market- place developments in the field of travel and tourism to support the work we need to do together to meet UNs 2030 Sustainable Development Goals (SDG 2030).

Choose your topic below & explore the knowledge base.
The *Tourism2030 Compass* under each topic leads you a global who is who map, courses and resources, certificates, good practices, events, news and more.

### The 10 action fields for achieving the SDGs2030

| | | | | | |
|---|---|---|---|---|---|
| Natural Heritage & Biodiversity | Human Rights & Labour Rights | Good Governance & CSR | Travel, Transport & Mobility | Destination Management | Knowledge Networking, Training, Education |
| Climate Change- Energy & Resource Efficiency | Cultural Heritage, Life Styles & Diversity | Value Chain Management & Fair Trade | Certification & Marketing | | |

|---|---|---|---|---|---|---|---|---|---|

The **Tourism2030 Drivers Test** gives a structured induction to students and tourism professionals who wish to access and share quality information on the development of sustainable and responsible travel and tourism.

## TOURISM 2030 INDUCTION & DRIVERS' TEST (1.0)

### New Tourism2030 Users - Welcome!

… to the structured induction to this Portal for tourism professionals who wish to access and share quality information on the development of sustainable & responsible travel & tourism, and also collaborate with others to do so. Tourism 2030 has so many possibilities for professional use that its worth spending time not just learning what's in the Portal, but learning how to use its' document storage and sharing features, its certification knowledge base, who's who, the green mapping service, Atlas of Excellence, etc …

STUDENTS' FOLDERS

### Therefore ….

the objective of this guidance is to develop and then test the users' competence in:
a) accessing information (level I)
b) uploading information (level II)
c) using the Content Management System (CMS) for folder design and management (level III)

Once you pass your level 3 test, you will receive a TOURISM 2030 Driver's Licence to show that you are a skilled user of the Portal.

Please note: the total time for taking the Drivers Test levels I to III is 11-12 hours.
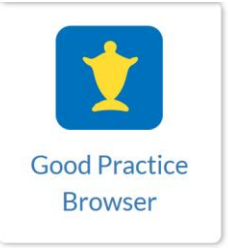

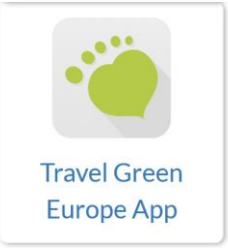

### Start learning!

You can start learning about this Portal and how to use it as a knowledge base and networking system now by following the steps below:

Level I - Accessing Information ▾

Level II - Uploading Information ▾

Level III – Using the CMS for Folder Management & Creating your own Tourism 2030 Office Space ▾

The **Competence in Certification course** helps students and tourism professionals to learn the Global Sustainable Tourism Criteria and indicators as baseline for their work in tourism businesses or destinations.

## Competence in Sustainable & Responsible Travel & Tourism Certification

This course is raising your competence in using the Global Sustainable Tourism Criteria to help businesses and destinations meet their SDG2030 targets in a Global Green Market Place.

The **Travel Green Europe App** is fed by the global **Green Travel Maps** to support the visibility and market access of tourism businesses, destinations and tour operators that are awarded a environmental or sustainability certificate.

The **Certification Quickfinder** gives global transparency and helps tourism businesses, destinations and tour operators to find those certificates which are available to them in their country and which meet their expectations.

## CERTIFICATION QUICKFINDER

### Which certificate for my business?

The Global Certification Quickfinder helps tourism businesses, destinations and tour operators to find those certificates which are available to them in their country and which meet their expectations on the coverage of sustainability issues, the credibility level, the visibility of their certified tourism on the global Green Travel Maps and other services for their applicants and members. Test it and

1. Select your category and country
2. Filter the available certificates
3. View the profile(s) & make your choice!

TRIANGLE KA Network | Collaborative Knowledge Base | TOURISM2030 Drivers Test | Certification Course | SDT Course & Handbook | Internship Programme | Travel Green Europe App | Certification Quickfinder | Good Practice Browser | Going Green Programme

The **Good Practice Browser** allows you to search and filter by the GSTC criteria outstanding examples of businesses and destinations all over the world, having been finalists or winners of environmental and sustainability awards.

**GOOD PRACTICE BROWSER**

The Tourism2030 Good Practice Browser allows you to search and filter outstanding examples of businesses and destinations all over the world. The Browser so far shows the locations of more than 500 finalists and winners of environmental and sustainability awards. About 70 examples – a.o. in European destinations – have been described in detail with their approaches, measures and achievements. You can filter these examples per country, category, landscape type - and per the GSTC criteria for destinations.

The **Going Green** - Travel & Tourism 2030 programme gives businesses and destinations with protected areas an introduction to the tools and services for managing, monitoring and marketing their green offer.

## A TRIANGLE Service for SME and Destinations

The Going Green - Travel & Tourism 2030 programme is a **TRIANGLE business sustainability outreach service** for members & beneficiaries who wish to face the challenges and take the opportunities of the 2030 global Agenda. Tourism businesses and service providers in destinations with protected areas across Europe as well as destination managers get an introduction to the tools and services for **managing, monitoring and marketing their green offer.**

Green Tour 2017

## Making your business and destination go green is (not) easy!

Gain a greener vision of your business' and/or destinations' future in a learning format suited to you.

Cultivate the green interest in your business networks through TRIANGLE partnership webinars, seminars, workshops and ongoing support.
